## PROFILE SUMMARY

Front-End MERN Stack Web Developer with internship experience at BD Calling IT Limited, experienced in developing scalable, responsive, and high-performance web applications. Strong expertise in HTML, CSS, Tailwind CSS, JavaScript, and React.js, with a proven ability to build cross-platform websites featuring real-time data integration and intuitive user interfaces. Committed to writing clean, maintainable code and delivering user-focused solutions optimized for both desktop and mobile environments.

## PROJECTS

### Clothing Store

- Built a React.js clothing store web application with dynamic product data fetched from a JSON file.
- Implemented search and category-based sorting to improve product discovery and user experience..
- Developed a cart system with automatic price calculation, where total cost updates based on item quantity changes..

### Car Rental

- Designed and developed a scalable Car Rental application using React.js, leveraging structured JSON data for dynamic content rendering.
- Integrated advanced search and vehicle-category filtering to enhance usability and optimize the user browsing experience.
- Implemented a robust booking and pricing logic, enabling automatic cost updates based on selected vehicles and rental duration.

### Tic-Tac-Toe Game

- Developed an interactive two-player Tic-Tac-Toe game using vanilla JavaScript, HTML, and CSS
- Implemented game logic to detect winning conditions, including row, column, and diagonal matches.
- Designed a clean and responsive UI with real-time turn handling and win detection for an engaging user experience.
